

WHAT IS SCIENCE WITHOUT CARE?

INDUSTRIAL CLEANING
TECHNOLOGY

YOUR
cleaning problem is
OUR
cleaning problem.

We don't quit until we've delivered the perfect cleaning solution for your specific needs and situation. For more than 20 years, our clients have benefited from the care that goes into all our cleaning solutions. When science and care converge, that makes all the difference.

Cleaning is more than just getting the science right.

WE CARE. And that starts with getting the science right. But, it goes way beyond that. At KYZEN it means putting you, the customer first, no matter what. It means taking the time to really get to know you and understand your specific needs well enough to provide the most effective, environmentally-friendly cleaning technologies and solutions for your specific situation.

KYZEN has been pioneering the world's award-winning environmentally responsible cleaning technologies since 1990 by fusing our commitment to groundbreaking science and research with the care we

have for your manufacturing process and your success.

The word KYZEN itself is derived from the Japanese word for continuously improving. That persistent and determined drive to advance and better our cleaning technologies and service is manifested in the unique solutions developed to suit you.

You can rest assured that when a KYZEN scientist tackles a customer's problem, taking the time and care to look at it in new ways from every angle, the right solution results. We guarantee it.

"It's not enough to know that a customer needs a solution. We want to understand why they need it and how it can help them succeed in their business."

We understand your performance is directly related to ours.

What sets KYZEN apart among cleaning technology companies? Beyond the fact that we are continuously honored for our innovation and service, it's the way we approach your problems as though they were our own. Others may know that a customer needs a low surface tension solution. We know why you need it, how it needs to work within your distinct parameters, limitations and challenges, where the process problems are occurring, how the solution needs to be modified and your comfort level with installing it. This kind of in-depth knowledge of your processes, company, technical and

manufacturing needs is attained when science and care converge.

Care also means responding quickly, showing up anytime, anywhere in the world there is a problem and tackling it head on until it is successfully resolved. It's what compels us to want you to achieve the highest levels of performance. And it's what motivates our world-renowned scientists and engineers to pursue and achieve the revolutionary research and innovation you need today and 20 years from now.

ENVIRONMENTAL RESPONSIBILITY Our teams of scientific and engineering experts go beyond being compliant with current environmental regulations. We anticipate and stay ahead of regulatory mandates, exceeding even the most stringent standards.

SCIENCE doesn't know your job depends on solving a cleaning problem. But, **CARE DOES.**

At KYZEN we empower our people to go the extra mile in understanding and meeting a customer's specific cleaning challenges and needs. Their dedication goes well beyond just doing their job. It can be found in their actions and attention to detail each day.

GLOBAL RECOGNITION

KYZEN as a company, our world-renowned scientists and our products have all been honored with more than 40 prestigious industry awards over the years in a number of different categories:

Metal Finishing

We understand that the high performance demands of metal finishing are a broad and diverse set of needs. Whether yours are routine parts cleaning, corrosion protection, demanding Mil-Spec requirements, high reliability, automotive parts, the precision cleaning required by space systems, or anywhere in between, we know you demand reliability and performance from every part every time.

Unless a surface is free of lubricants, oils and other imperfections it's not clean enough, smooth enough or ready for finishing. Soils change in metal finishing, and our experienced team of KYZEN engineers adapts and innovates to meet new and growing

demands and challenges whether from oils and coolants, metals, smut, oxides, additives or abrasive compounds.

Where science and care converge you'll find a commitment to continuous improvement, and to research and development that consistently results in some of the cleaning technology industry's most innovative products and solutions. Our high performance cleaning products and processes already help keep the metal finishing, aerospace, automotive, manufacturing, medical devices and other industries running smoothly. We can deliver, or create the right solution that can help you do the same.

GLOBAL REACH With manufacturing, applications, research and engineering centers based across the globe, KYZEN's expert engineers, scientists and technicians are readily accessible around the clock to customers all over the world.

"We have the resources, talent and technologies to support our customers wherever they are – on the line, in the field and in the engineering side of things."

SPECIAL PURPOSE PRODUCTS

KYZEN DF-7

Sump-Side Anti-Foaming Agent for Industrial Aqueous Cleaners - a blend of ingredients specially chosen to be effective at reducing foam caused by in aqueous cleaning systems at all temperatures.

KYZEN BOOSTER 6

Maintenance Booster for METALNOX M6960 - a specialty blended stabilizer designed to be added sump-side to extend the life of bromine containing vapor degreasing systems.

KYZEN BOOSTER 80

Maintenance Booster for METALNOX® M6380 - an additive designed to stop the formation of and neutralize acidic materials that may form in degreasing systems while removing chlorine containing oils. KYZEN'S Acid Acceptance Kit 2 monitors acid levels and indicates when KYZEN® Booster 80 is needed

KYZEN BOOSTER 81

Maintenance Booster for METALNOX® M6381 - an additive designed to stop the formation of and neutralize acidic materials that may form in degreasing systems while removing chlorine containing oils. KYZEN'S Acid Acceptance Kit 3 monitors acid levels and indicates when KYZEN® Booster 81 is needed.

CLEANERS

METALNOX M6093

Safe Citric Acid Cleaner/ Oxide Remover/ SS Passivator
METALNOX® M6093 is a citric acid formulation designed to be effective on metal oxides, scale, rust, carbonaceous soils and other industrial soils. It can be used on a variety of metals including steel and aluminum.

METALNOX M6319

Aqueous Alkaline Industrial Parts Cleaner
METALNOX® M6319 is a heavy-duty, low foaming mild alkaline chemistry designed to clean a wide range of machining oils and greases from metal parts for steel, ferrous, copper and many alloys.

METALNOX M6321

High Alkaline Cleaner for Carbonaceous Soils
METALNOX® M6321 is an aqueous blend specially designed for heavy-duty cleaning of carbonaceous soils resulting from deep draw, laser cutting, welding, brazing and other similar operations.

METALNOX M6324US

Heavy-Duty Alkaline Immersion and Ultrasonic Cleaner
METALNOX® M6324US is a high strength, high alkaline, aqueous cleaning chemistry which contains chemical components designed for ultrasonic and other immersion cleaning systems.

METALNOX M6380*

Modified Alcohol Solvent for Polar and Non-Polar Soils
METALNOX® M6380 is a modified alcohol based solvent cleaner blend designed to clean a wide range of polar and non-polar soils from ferrous and non-ferrous surfaces.

METALNOX M6432

Neutral pH All Metal Cleaner
METALNOX® M6432 is a neutral pH cleaning chemistry designed to be effective on a variety of industrial soils including oil, grease, light oxides and buffing compound.

METALNOX M6314

Mild Alkaline All-Metal Cleaner
METALNOX® M6314 is a safe, all-purpose aqueous cleaner, specifically designed to clean a broad range of both water soluble and insoluble oils. It is a very low solids product and is often used without a rinse, even prior to coating.

METALNOX M6319US

Alkaline All-Purpose Ultrasonic Cleaner
METALNOX® M6319US is an alkaline cleaner designed to be used in ultrasonic parts cleaning systems. While effective on removal of most types of oils and greases, it is also an excellent chemistry for buffing, lapping and polishing compounds.

METALNOX M6324R

Heavy-Duty Aqueous Alkaline Cleaner
METALNOX® M6324R is a high alkaline, aqueous cleaner specially designed for heavy-duty cleaning of oils, greases, oxides and carbon. M6324R is effective in high speed stamping and deep draw applications.

METALNOX M6330

Heavy Duty Aqueous Alkaline Cleaner and Brightener
METALNOX® M6330 is a high alkaline aqueous solution designed to clean and brighten a wide variety of metal parts.

METALNOX M6381**

Precision Hydrocarbon Solvent Cleaner
METALNOX® M6381 is an aliphatic hydrocarbon blend specially designed for heavy-duty cleaning of oils, waxes, grease and shop dirt while being safe on ferrous, copper alloys, magnesium, aluminum, plastics rubbers, glass and ceramics.

METALNOX M6440

Neutral pH Ultrasonic Immersion Cleaner for Buffing / Lapping Compounds
METALNOX® M6440 is a safe, neutral pH cleaning chemistry designed for removal of buffing compounds and metal oxides. M6440 is safe for all of the metals commonly found in the medical implant and device industries.

CLEANERS WITH CORROSION INHIBITION

METALNOX M6319CP

Aqueous Alkaline Industrial Parts Cleaner with Rust Protection
METALNOX® M6319CP is a heavy-duty, low foam alkaline chemistry designed to remove a wide range of machining and stamping oils from metal parts, including steel and copper alloys. M6319CP combines both exceptional cleaning and corrosion protection for steel parts. It is used in both the wash and rinse stages of multi-stage cleaning systems.

METALNOX M6310

Mild Alkaline Cleaner with Aluminum/Brass Protection
METALNOX® M6310 is a mild alkaline, aqueous cleaning chemistry designed to remove machining oils, burned on carbon and other manufacturing soils from all types of metal substrates. M6310 is highly effective on tungsten carbide and other metals susceptible to chemical attack.

CORROSION INHIBITORS

KYZEN CP90S

Aqueous Long-Term Dry Film Corrosion Preventative
KYZEN CP90S is an aqueous blend of organic and inorganic inhibitors specially designed for long-term protection from oxidation during in-door storage. To prevent flash rusting of ferrous parts, add 1-3% CP90S to all wet stages.

KYZEN CP90SA

Long-Term Dry Film Corrosion Preventative
KYZEN CP90SA is a long term corrosion protection product proven effective in preventing rust or oxidation on all ferrous parts in the most humid environment, even during ocean freight shipment. CP90SA also ships safely via airfreight.

KYZEN CP90D

Water Displacing Long-Term Wet Film Corrosion Preventative
KYZEN® CP90D is a heavy-duty blend of organic inhibitors in a water displacing hydrophobic medium. It is specifically designed for long term protection from oxidation during in-door storage.

KYZEN CP80

Corrosion Preventative Additive for Modified Alcohol Solvents
KYZEN® CP80 is a heavy duty blend of organic inhibitors specifically designed to be used with Metalnox M6380 or other modified alcohol solvents. CP80 leaves a wet film and offers short and long term protection on a variety of metal parts for indoor storage.

KYZEN CP81

Corrosion Preventative Additive for Hydrocarbon Solvent
KYZEN® CP81 is a heavy duty wet film corrosion preventative. CP81 is a blend of organic inhibitors explicitly designed to be used with Metalnox M6381 or other hydrocarbon solvents. CP81 offers short term and long term protection on a variety of metal parts for indoor storage.

METALNOX M6324CP

Heavy Duty Alkaline Industrial Parts Cleaner with Rust Protection
METALNOX® M6324CP is a heavy-duty, alkaline cleaner/inhibitor formulated to remove chlorinated, paraffinic oils used in a wide range of machining, stamping, and deep draw operations. M6324CP is built with effective steel corrosion inhibitors to provide long term protection from rust. M6324CP can also be added to both the wash and rinse stages of multi-stage cleaning systems.

SPECIALTY APPLICATIONS

METALNOX M6060

Iron Phosphatizing Solution and Cleaner
METALNOX® M6060 is an effective, pre-coating treatment chemistry for both aluminum and steel. It is used prior to coating operations for cleaning and phosphatizing, or strictly phosphatizing.

METALNOX M6318

Mil-Specification Compliant Alkaline Precision Cleaner
METALNOX® M6318 is designed to clean aluminum, titanium and other materials commonly used in the military and aerospace industries. M6318 was tested and conforms to many AMS and ASTM specifications including ASTM F-1110 (Sandwich Corrosion).

METALNOX M6091

Strong Mineral Acid Rust / Scale Remover and Tank Neutralizer
METALNOX® M6091 is a strong aqueous acid blend with a pH of 1. M6091 has a specially selected blend of organic and mineral acids, inhibitors and surfactants designed to be effective on metal oxides, scale, lime deposits, particulates, and other inorganic soils.

*Support Products for Metalnox M6380: Kyzen CP80, Kyzen Booster 80 & Kyzen Acid Acceptance Kit 2 (AAK2)

**Support Products for Metalnox M6381: Kyzen CP81, Kyzen Booster 81 & Kyzen Acid Acceptance Kit 3 (AAK3)

Because we want you to achieve the highest levels of performance, we connect care with leading science to continuously improve, problem solve and create the most effective cleaning solutions to suit your specific needs.
